FINDINGS OF FACT AND RECOMMENDATION
OF THE OGLE COUNTY ZONING BOARD OF APPEALS

This is the findings of fact and the recommendation of the Ogle County Zoning Board of Appeals concerning an application of Joseph J. & Julie A. Ebens, 946 N. IL Route 2, Oregon, IL, in case #10-09AM. The applicants are requesting a map amendment to change the zoning classification of Parcel Identification Nos. 16-04-226-014 and 16-03-101-028, a 5.07 acre parcel, from R-2 Single Family Residence District to R-1 Rural Residence District. Said parcel is part of Section(s) 3 and 4, Township 23N, Range 10E of the 4rd Principal Meridian and is located in Oregon-Nashua Township at 946 N. IL Route 2.

After due notice, as required by law, the Zoning Board of Appeals held a public hearing in this case on December 22, 2009 at the Ogle County Farm Bureau, 421 W. Pines Rd., Oregon, Illinois and hereby report their findings of fact and their recommendation as follows:

SITE INFORMATION: See Staff Report (attached herewith).

ANALYSIS OF SEVEN STANDARDS: After considering all the evidence and testimony presented at the public hearing, this Board makes the following analysis of the six standards listed in Section 9.07(G) (Standards for Map Amendments) of the *Ogle County Amendatory Zoning Ordinance* that must all be found in the affirmative prior to recommending granting of the petition.

1. That the proposed amendment will allow development that is compatible with existing uses and zoning of nearby property. **Continued use of the site for large-lot residential use is compatible with the existing uses (which are predominately residential) and zoning of nearby property. Standard met.**

2. That the County of Ogle and other service providers will be able to provide adequate public facilities and services to the property (including, but not necessarily limited to, schools, police and fire protection, roads and highways, water supply and sewage disposal), while maintaining adequate public facilities and levels of service to existing development. **Continued use of the site for residential use will not create a burden on the County of Ogle and other public service providers. Standard met.**

3. That the proposed amendment will not result in significant adverse impacts on other property in the vicinity of the subject site or on the environment, including air, noise, stormwater management, wildlife and natural resources. **No adverse impacts on other property in the vicinity of the subject site or on the environment, including air, noise, stormwater management, wildlife and natural resources are anticipated from the continued residential use of the site. Standard met.**

4. That the subject property is suitable for the proposed zoning classification. **The site is suitable for the R-1 zoning district, as it conforms to the minimum lot size and width requirements, is located on a State highway, and is buffered from other residential uses so that the raising of livestock on the site will not create a nuisance or incompatibility. Standard met.**

5. That the proposed zoning classification is consistent with the trend of development, if any, in the general area of the subject property including changes, if any, which have taken place since the day the property in question was placed in its present zoning classification. **The site is located within a residential area. The proposed zoning classification of R-1 Rural Residence District is consistent with this trend and the existing zoning of the surrounding land. Standard met.**

6. That the proposed amendment is consistent with the public interest and not solely for the interest of the applicant, giving due consideration to the stated purpose and intent of the Amendatory Zoning Ordinance as set forth in Division 1 therein, the Land Evaluation and Site Assessment (LESA) findings (if applicable), and the recommendation(s) of the Ogle County Regional Planning Commission with respect to the *Ogle County Amendatory Comprehensive Plan*. **The proposed amendment is consistent with the public interest and not solely for the interest of the applicant, as the proposed amendment is consistent with the purpose and intent of the Amendatory Zoning Ordinance, the site is located within 1.5 miles of the City of Oregon, and the Regional Planning Commission has recommended approval. Standard met.**

RECOMMENDATION: We find that the proposed map amendment requested meets all the standards for recommending granting as found in Section 9.07(G) of the *Ogle County Amendatory Zoning Ordinance* and that such request is in the public interest. Therefore, the Zoning Board of Appeals hereby recommends that the zoning district classification of the property described above be changed from R-2 Single Family Residence District to R-1 Rural Residence District.

ROLL CALL VOTE: The roll call vote was 5 members for the motion to recommend granting, 0 opposed.

Respectfully submitted this 22nd day of December 2009 by the Ogle County Zoning Board of Appeals.
